### 1. Things That Went Well

Every member of the team contributed actively.

We were able to implement the changes we needed to from the last sprint retro

Meetings were conducted efficiently with great participant.

Efficient participant in the group meetings was shown. Each member was ready to do the work assigned and deliverables were met accordingly.

### 2. Things That Could Have Gone Better

Group communication could have gone better as group members got busy with other projects. Group member could be more punctual when attending the group meetings.

### 3. Things That Surprised Us

Group got busy with other projects in university, hence some of the things had to be speeded.

Group cohesion was better than expected.

Backend took more effort than expected.

### 4. Lessons Learned

Group communication should be given more focus and group should be more open about their availability to each other.

Team punctuality should be talked about initially.

## 5. Final Thoughts

Things to keep :

The group is really efficient when doing work. Enthusiasm, group communication and the work ethic of the team

We should keep our team work and working spirit always strong to face more difficulties in next sprints.

Things to change :

Group communication and team cohesion will be given more attention in the next sprint
